SIX COUNTIANS APPOINTMENTS ON COMMITTEE

Six acceptances have been received by the Adams County commissioners to invitations sent a number of people asking them to serve on a county-wide Civil War centennial committee.

The commissioners said the committee, which will include representatives from every borough and township, will be asked to promote interest in the forthcoming Civil War centennial in their townships and boroughs as well as county-wide. The committee will cooperate in the observance of the 100th anniversary of the Battle of Gettysburg, which is being planned by a state commission.

Six Acceptances

The commissioners said those who have notified them so far of their acceptance are: Mrs. Della B. Hershey, York Springs, whose grandfather fought at Little Round Top; Francis E. Coulson, York Springs; Associate Judge Clarence D. Deardorff, McKnightstown; Luther Lady, Biglerville R. D.; Arthur Weaver, Gettysburg R. 4, and John D. Bare, Hanover R. D. Other acceptances are expected in the near future.

Today, at their meeting at the court house, the commissioners continued their study of exonerations from taxes. Tax collectors meeting today included: J. H. Scott, Highland; J. ROTH TELLS OF WIDE INTEREST TO SAVE 'FIELD

Nationwide interest has been stirred by efforts to obtain federal funds to purchase land comprising the Gettysburg Battlefield. G. Henry Roth, chairman of the public relations committee of the Gettysburg Travel Council, told the Women of the Moose at a meeting Tuesday evening in the Moose home, York St.

Commenting on editorials favoring federal purchase of more than 600 acres of land for the battlefield Roth displayed the editorial page of the Reading Eagle which carried a cartoon and an editorial on the subject and said that The Saturday Evening Post, Baltimore Sun, Washington Post and other newspapers and magazines have carried articles and editorials favoring the land purchase.

"The House of Representatives turned down the original allocation of funds for the purchase, principally I think, because the congressmen were of the opinion shared by most people here that what they see as battlefield is all federally owned land. Unfortunately this is not true. There are too many holes, as it were, in the picture, land that should be acquired to protect the battlefield if we want to keep it the way it is."

Appealed For Support

"The question is now before the Senate and it is hoped that the Senate will restore the appropriation for land purchase—otherwise federal purchase of land is out, at least for this session of Congress."

The local Travel Council and Gettysburg Civil War Round Table cooperated in sending more than 700 letters to individuals seeking their support in urging the Senate to restore the funds for land purchase, Roth said.

Commenting on a proposal Congressman James Quigley is making to Congress that an arrangement be made whereby

Mrs. Luce issued this statement in New York:

"I am grateful for the overwhelming vote of confirmation in the Senate. We must now wait until the dirt settles. My difficulties, of course, go some years back and began when Sen. Wayne Morse was kicked in the head by a horse."

Some Democratic senators who

had voted for confirmation of the nomination said that if they had to do it over again they would vote against her.

House OK's More Taxes

HARRISBURG (AP)—The House today gave speedy approval to bills re-enacting 101 million dollars in taxes due to expire May 31 and raising 25 million more in new cigarette taxes.

The action followed within half an hour a Republican caucus decision to supply the necessary GOP votes for passage of the legislation.

In quick succession the House approved bills to re-enact the 1 percent realty transfer tax; the corporate net income tax at 6 percent, and a penny a pack boost in cigarette taxes to 6 cents.

The present 5-cent cigarette levy was due to go down to 4 cents May 31, but the House-approved measure continues the extra penny and adds another penny on top of that to pay for the Korean bonus.

The cigarette tax bill, already approved by the Senate, now goes to the governor. The other tax measures go to the Senate for action.

WORK AMONG HANDICAPPED IS DESCRIBED

Reisman, state supervisor of the Bureau of Rehabilitation, and Richard Nye, executive director of Occupational Services, Inc., Chambersburg, at a meeting of the Adams County Chapter of The Pennsylvania Association for Retarded Children Tuesday evening at the High Street school building.

"This need," he said, "is being met through the establishment of sheltered workshops that are being set up by certain communities. These workshops, which are designed for retarded persons of employment age, include personal adjustment program and job training programs. The ultimate goal is to prepare the trainee to take his place in competitive industry. However, if the trainee is not able to leave the workshop, he may stay there as a permanent employee." Nye showed slides of the trainees and their work at the Chambersburg workshop.

COUPLE WED 61 YEARS AGO

Mr. and Mrs. Charles B. Mundorff, McKnightstown, celebrated their first wedding anniversary quietly Sunday at their home. Among visitors over the weekend were their only grandchild, Mrs. Robert Hamme, and her daughter, Susan, of Cleveland, Ohio.

The couple were married April 26, 1898, by the late Rev. John F. Mackley, Reformed Church pastor at Fairfield, in the parsonage at Fairfield. They had two children, a son who died during the influenza epidemic in 1918, and a daughter, Mrs. Kenneth Stine, who lives in Hanover. Until three years ago when his health forced his retirement, Mr. Mundorff was active, working at plumbing and painting. He had formerly farmed. He was born near Knoxlyn, a son of the late Mr. and Mrs. William Mundorff. His father died when Charles was five. Mr. Mundorff recalled that before he was married he had for four or five years driven a four-horse team hauling freight between Philadelphia, Highfield, Hagerstown and Harrisburg. Mrs. Mundorff was Nellie Geyer, a daughter of the late Mr. and Mrs. Eli Geyer, of near Cashtown. She was born nearby in Franklin County. Except for one year spent in Ohio, the Mundorffs have lived in the Cashtown and McKnightstown area. They moved into their present home which they built 27 years ago.

Their 61 years together have been busy ones, Mrs. Mundorff said. "It doesn't seem like that long," she said.

President

(Continued From Page 1)
She made the remark, the President said, in the heat of anger. But, he went on, so far as he is concerned the criticism of the Oregon senator was not meant as any disparagement of the Senate.

No Offer To Resign
Then Eisenhower said he feels there has been no major impairment of Mrs. Luce's usefulness. He also said that she had not so far offered to resign.

Even as Eisenhower was holding his news conference, Morse was telling the Senate it was true that he had checked a report "as to the mental competency" of Mrs. Luce to serve as ambassador to Brazil.

Morse said he understood there had been charges "of improper conduct" on his part in such checking on the nominee.

Made Phone Query
The senator said a newspaperman had come to his office with certain information and that on this basis he made a telephone inquiry and then dropped the subject.

There had been reports Tuesday that Morse had sought to learn whether Mrs. Luce had been under psychiatric care. The suggestion from Luce that his wife should resign as ambassador had been pinned to what might be the attitude of the Brazilian people in view of the criticism of her in the Senate.

DOG CATCHER ACQUITTED; SHARES COSTS

James G. McDowell Jr., 49, Dallastown R. 1, Adams and York County dog law enforcement officer, was found innocent by a York County jury Tuesday on a charge of maliciously killing a domestic animal, a seven-month-old collie owned by Freeman L. Hoffmaster of Manchester R. 1.

The jury, which deliberated its verdict for nearly two hours, divided the \$146.46 costs between the prosecutor and defendant.

Judge Walter I. Anderson told the jury in his charge that the panel had to determine whether the dog was running at large at the time McDowell shot it. The dog admittedly was not wearing a license and Judge Anderson told the jury that under the law the officer had the duty of killing a dog running at large and not bearing a license.

According to testimony, McDowell and Earl W. Frantz, agent for the Society for the Prevention of Cruelty to Animals, had one to the area of the Hoffmaster home after receiving a number of complaints of dogs running at large in the area. Seeing a pack of about eight dogs, each of the men picked up a dog to place it in the SPCA truck. The Hoffmaster dog bit McDowell and he shot the animal.

A school bus driver testified that a pack of dogs gathered around his bus every time it stopped near the Hoffmaster property. "Some ran in front of the bus and some got on it." He said he feared children would be thrown from the bus seats if he had to stop quickly for the dogs. A resident of the area said she had complained to the SPCA when the Hoffmaster dogs and other dogs appeared at the bus stop almost daily and jumped up on children. McDowell testified to a complaint of a nearby farmer that his turkeys were being killed by dogs and said that he saw five dogs in the turkey enclosure including one he believed to be the dog he shot.

The Hoffmasters held the dog was on their property when shot and therefore could not have been running at large. McDowell said the shooting was not on the Hoffmaster land. There was testimony about a shotgun shell found near the Hoffmaster door.

DECORATION OF HOME TOPIC FOR SPEAKER

Ralph Patterson, head of the Extension Agricultural Engineering section of Pennsylvania State University, was the speaker Tuesday evening at a ladies' night banquet held at the Harney Fire Hall by the Gettysburg Young Farmers Association.

Speaking on "interior decoration, because the ladies are present tonight and they do 75 per cent of the interior decoration of the home," Patterson told the group to make careful selection of points adding that "purchase of a good quality paint from a reputable dealer saves you money in the long run." He said that alkyd, latex or vinyl based paints give the best results and the paint should be determined by the use to which it is to be put. "Lead based paints which once were the best available are now outclassed by titanium oxide based paints."

"There is no reason by a professional job of decorating cannot be done. The paint manufacturers have countless types of colors and shades available and they provide color charts so you can secure the best colors to use in relationship to the color of other articles in the room."

In pointing, he urged the young farmers to "resist temptation, do the ceiling first, then the walls, then the trim."

County Agent Frank S. Zettle urged spraying for spittle bug and alfalfa weevil at the present time, declaring that the sprays can increase the crops.

President Wilbur Waybright presided at the dinner meeting.

Today's Talk

THE EYES OF SPRINGTIME

More than at any other season of the year I await the spring-time with its budding flowers and awakened leaves in all the trees and shrubbery. These are the eyes of spring looking into the hearts of us all. Even the tiniest flower blinks its eyes to get a touch of the earliest spring sunshine.

Many varieties of birds have returned to my northern home. Even as I write I look upon two cardinals feeding, among others, from food scattered for them — and how grateful they all are! These beautiful birds bathe in the spring just below my home at the edge of a great rock. I welcome the robins that have returned, who seem happy that their old haunts still remain for the new nesting time.

How glorious it is to have these feathered friends back again, to sing their morning songs and evening farewells. Few have the inspiring notes birds have, as they open their hearts to Nature's miracle days. It is interesting also to note how these birds, little by little, keep losing their fears and seem to emphasize their appreciation of everything meant for their good will and health.

Nature is our greatest textbook. From her we learn more from any other single volume. And her textbook is open wide at all times, and has been for centuries. Nature has taught us far more than any book, though these books have sprung from the earth for our love and enjoyment. I read in an advertisement for diamonds these words: "Diamonds are Forever." How true, but the same thing can be said of everything beautiful and inspiring. The eyes of springtime look over all. They are like a mother's eyes. They look into the soul of things.

Tomorrow Mr. Adams will talk on the subject: "On Knowing People"

THE CRY OF YOUTH

I want to be where the big men are,

Out there on the battle line.

I want to carry my standard far

And know the applause is mine.

My blood runs hot in my veins today

And I yearn for a strong man's place,

But, oh, so slowly I tread my way

In the maze of this worldly race.

I dream by night of the days to be

When I'll battle my way alone;

When none shall advise or counsel me

And the strength that I have is known.

But I chafe by day at the binding reins

Of youth that hold me back,

And I'm yearning now for the open plains;

I'm tired of the beaten track.

But slow, so slow are the steps I take,

And light are my burdens, too;

And many a night I lie awake

Planning wonderful things to do.

For the great unrest is in my breast;

I shall never know peace again

Till I've won the right to a strong man's test

And taken my place with men.

"ONE AND ONLY LOVE"

If I could always hold you . . . I never more would pine . . . for, darling, when I'm close to you . . . it seems the world is mine . . . you bring a brilliant burst of sun . . . into a cloudy day . . . so many are the happy things . . . that you alone portray . . . yes, happy things compose the charms . . . that fill me with delight . . . LAKERS WILL
MOVE CAGERS
TO CHICAGO

NEW YORK (AP) — Mox Winter, former owner of the Minneapolis Lakers, was practically assured today of a National Basketball Assn. franchise in Chicago for the 1960-61 season.

The official announcement may not be made for a while but it is a virtual certainty that the Western Division will have a fifth member in the Windy City next year.

What's more, according to President Maurice Podoloff, the professional cage circuit will expand to include Los Angeles and San Francisco in 1961-62.

No Other Changes
Podoloff said the moves will not involve transferring any of the current franchises.

He made the announcement Tuesday at the end of the second day's session of a three-day meeting of the NBA club owners.

A club owner, who asked not to be identified, said the owners were talking in terms of a 12-club league for 1961-62. In addition to Chicago, Los Angeles and San Francisco, Pittsburgh would be awarded a franchise. The league would then be split into three four-club divisions.

COSTS \$1,650
TO ENTER DERBY

LOUISVILLE, Ky. (AP) — It's simple enough to make your horse eligible for the Kentucky Derby, the tough job is to get one worthy of consideration to start in the great American thoroughbred classic. It costs a total of \$1,600 to go for a guaranteed \$100,000.

Winning the race? There have been 84 runnings of the derby since it was inaugurated in 1875. Barring a dead heat, there will be 85 winners shortly after they play "My Old Kentucky Home" Saturday. The odds are long, the rewards are the horseman's dream.

As for getting into the derby, it's simple. The owner pays only \$100 by Feb. 15 of the year his horse is a 3-year-old.

If by Thursday, 48 hours before the race, the owner still has hopes, he gets up \$250 to pass the entry box. Then he has until 45 minutes before post time Saturday to make the final plunge. Scratches from the race are not permitted after 3:45 p.m.

To actually start in the derby, an additional payment of \$1,250 is required. The track adds \$125,000 to the nomination, entry and starting fees. Needless, 1956 winner, won a record \$123,450.

Major League Stars

By THE ASSOCIATED PRESS

Pitching — Russ Kemmerer, Senators, won his third in a row, walking none and striking out three while beating the A's 8-3 with an eight-hitter.

Hitting — Ron Samford, Senators, had two hits in three at-bats, hitting his first major league home run with a man on base in a clinching, three-run sixth inning for 8-3 victory over the A's.

BOSTON (AP) — Bill Talbert, former U.S. Davis Cup captain, today said he believes Australia will not even reach the final round this year in its quest to regain the prize of world amateur tennis.

"I don't see anyone who'll beat an American team of Alex Olmedo and Butch Buchholz — not the Australians," Talbert said on the occasion of an exhibition of the Davis Cup here.

The U.S. regained the cup from the Aussies last December.

Injured Jumper To
Resume Training

BOSTON (AP) — Surgeons say that if things go as expected John Thomas, world record high jumper, may be able to resume training — and possibly competition — late this spring.

Thomas, Boston University freshman, underwent a skin graft operation Monday in which almost eight square inches of skin was taken from his thigh and stitched close to an unhealed wound on his left foot.

Thomas was injured March 24 when his foot was caught in the door of an elevator.

SENATORS AND
A'S HAVE TOP
AL PITCHERS

If today's pennant race standings aren't enough to convince you that this is most unusual year in the American League, take a stab at naming the three pitchers in the league who have won as many as three games so far.

The AL has more aces than a pinocchio deck—Billy Pierce, Dick Donovan, Herb Score, Cal McLish, Bob Turley, Whitey Ford, Frank Lary, Jim Bunning and Jack Harshman, to name a few.

But the three who have won three are Washington's Pete Ramos and Russ Kemmerer and Kansas City's Bob Grim. Each is 3-1.

Ramos had a 14-18 record last season for the last place Senators. Kemmerer was 6-15. Grim had a 7-7 record split between the New York Yankees and seventh place A's.

Kemmerer, who at 28 became a full-time starting pitcher for the first time last season, put away his third in a row Tuesday night at Kansas City, beating the A's 8-3 with an eight-hitter while the Senators skipped past Boston and New York into fifth place.

It was the only game played in the majors. Rain and cold idled New York at Chicago, Boston at Cleveland and Baltimore at Detroit in the American and Chicago at Milwaukee, San Francisco at Philadelphia and St. Louis at Cincinnati in the National. Los Angeles and Pittsburgh weren't scheduled.

SLENTZ GIVEN
TWO TROPHIES

John J. Slentz, district governor, was the recipient of two bowling trophies at the Tuesday night Exchange Club meeting in the Plaza Restaurant. Alexis Chritzman, president of the club's bowling team, donated the trophies.

One trophy signifies the highest average rolled during the season, the other is for the most improved club bowler during the season. Chritzman said any team member eligible for these awards must participate in 75 per cent of all matches.

David Garfinkle also received a trophy for his support of the team.

The club will continue to meet at the Plaza Restaurant for the next four weeks until it begins its summer custom of meeting in nearby restaurants, President Phil Neth announced.

Ralph K. Will was appointed "whip" of the club by Neth. He is the fine collector of the club.

A business meeting will be held next Tuesday evening.

LONG ODDS ARE
ON PATTERSON
IN TITLE BOUT

INDIANAPOLIS (AP) — Does Britain's Brian London have any kind of a chance to take away Floyd Patterson's heavyweight title Friday night?

The odds makers (10 to 1) say no. The experts from Britain and the United States say no. But London's right hand booms out a yes.

We had our first look at the 6-foot, 205-pound British husky in action Tuesday. We were surprised by his style and the speed of his punching, especially with right uppercuts and straight rights.

"Good Finisher"

The former British champion is supposed to be a brawling, American-type battler with little finesse. That's not what we saw, although you can't go by a two-round boxing workout.

London fights mostly from a stand-up, flat-footed stance. He does very little crouching. He doesn't bore in but he moves in swinging. He has a fair jab but unloads his rights to the jaw with more than average ability for a big man.

"I'm a good finisher," said Brian, "and if I get him down I think I can keep him there. But of course I'll have to nail him first."

The 24-year-old Blackpool native finished up his hard training in the two-round drill with Dusty Rhodes of New York. Rhodes, a one-time sparring partner for Patterson, did very little but offer a target.

FORESEE MORE
GRID PENALTIES

NEW ORLEANS (AP) — The NCAA, on notice it will make a board study of the recruiting and financial aid of college athletes, may lower the boom today on offending members.

The final session of the three-day meeting of the powerful Executive Council of the National Collegiate Athletic Assn. was devoted to a report from its committee on rules infractions. The committee had 18 cases under consideration.

The NCAA Tuesday refused to lighten or revoke penalties imposed against the University of Southern California for athletic recruiting violations. The punishment, meted out last January, bans the school from the NCAA television program for two years and keeps it out of NCAA championships for one year.

Walt Byers, NCAA executive director, said a committee, authorized by the Executive Council Tuesday, would study means of improving the athletic recruiting program and would not be involved with violations of present standards.

WILL REJECT
BUC PROTEST

PITTSBURGH (AP)—President Warren Giles of the National League has told a Pittsburgh newsman in a telephone conversation that he will reject the Pirates' protest over a game in Philadelphia last Sunday unless he receives additional information to change his mind.

Giles said he wrote Manager Danny Murtaugh that he sees no grounds for a protest.

The dispute came in the first inning of the second game on a doubleheader. Vill Virdon of Pittsburgh collided with plate umpire Vic Delmore while trying to score. He was tagged by the Philadelphia catcher. Third base umpire Henry Crawford called Virdon out. Pittsburgh eventually lost the game 10-5.

Murtaugh protested, contending Delmore blocked the base path. Giles said he received a letter from Joe E. Brown, Pittsburgh general manager, but had yet to read it.

"If there is nothing new in Joe's letter, my decision will stand that there are no grounds for protest," concluded Giles.

Frank Bullough, star guard on the 1954 Michigan State Rose Bowl team, has returned to his alma mater as an assistant football coach.

ALLENTOWN IN
TOP SPOT TIE

By THE ASSOCIATED PRESS

Before the Eastern Baseball League season opened this year, sports writers, fans and other observers were predicting big things for Allentown.

Even manager Sheriff Robinson stuck his neck out a bit and predicted a first division finish, although the team finished near the bottom last year.

The season is young yet, but so far Allentown hasn't let its followers down.

The Red Sox, with a 4-2 record, are tied for first with Birmingham. The two teams resume their series at Birmingham tonight. Rain forced postponement of their game Tuesday night.

The two pitchers who were with Allentown last year have accounted for three of the club's wins. Al Antinelli is 2-0 and Ron Cote is 1-0.

And outfielder Dan Lynk, who hit 37 home runs with Sioux City last year, is leading the league with a .526 average. He has hit one home run and has batted in seven runs.

Meanwhile, officials hoped for some good weather. For the second night in a row rain washed out the entire schedule.

PORTLAND, Ore. (AP) — Once-beaten Phil Moyer seeks to vault into the center of middleweight title chase through his scheduled 10-round bout with Yama Bahama here tonight.

Moyer, 21, is the older brother of sixth-ranked welterweight Danny Moyer.

The fight will be televised nationally at 6 p.m. (ST) from the Portland Armory.

The veteran Bahama is favored.

SAN FRANCISCO (AP) — San Francisco Giants baseball club stock has soared to five times its value at the time the team moved here from New York 1½ years ago.

Phillip B. Cross, an official in a Los Angeles brokerage firm, reported that eight shares of Giants' stock sold Tuesday for \$900 each. The stock was priced at \$175 when the Giants moved here.

Only about 500 shares of a reported 11,751 total are available for public sale.

DON'T EXPECT
HEAVY DERBY
FAVORITE NOW

By PAUL BECK
LOUISVILLE, Ky. (AP) — It seems sure now that the 85th running of the Kentucky Derby Saturday isn't going to produce a heavy favorite among the bettors.

Three prime reasons show up today:

1. The eye-catching filly Silver Spoon definitely will run in the mile-and-a-quarter classic at Churchill Downs barring injury.

2. Tuesday's Derby Trial, expected to cut into the big crowd hoping for a chance at the \$125,000 added money and the gold cup, failed to produce a topheavy winner.

3. The status of two top contenders feared out of the race has improved.

Close Finish

First Landing, last year's champion 2-year-old, won his division in Tuesday's trial but had to fight off powerful stretch bids by Carrie C. Hillock's Quantrell, who finished third, and K. G. Marshall's John Bruce, a very fast closing second.

Open View from Elkcam Stable showed his derby qualifications by running a mile in 1:35 3-5 in the first division. It was the third fastest trial in history and 3-5 of a second better than First Landing's.

California Derby winner Finnegan battled Open View down to the wire, but lost by a head. Roy Orbitt was only another three-quarters of a length away.

Cain Hoy Stable's Hoist Away and Llangollen Farm's Mosby were declared out of the derby after the first division.

A 3-year-old filly became a sentimental favorite when owner C. V. Whitney announced Silver Spoon will run Saturday. Only one filly—Regret in 1915—has ever won the derby.

Easy Spur, lame with a sore ankle, still is a doubtful starter, but Trainer Paul Kelley said: "I imagine I'll put him in the entry box Thursday morning."

Calumet Farm also is unsure about On-And-On. But trainer Jimmy Jones was optimistic today and his father Ben said "This is the most open derby I've ever seen," indicating Calumet probably will go after its third straight derby victory.

SCRIBES MAKE
FUN OF DETROIT

DETROIT (AP) — The Detroit Tigers are producing imaginative headlines and provoking lots of public comment, even if they are not winning any baseball games.

The Detroit Free Press, for example, bannered "Our Puddycats Lose No. 12" after the Tigers dropped Sunday's contest to the Kansas City Athletics.

The Tigers, who have won only once in 13 starts were rained out Tuesday night against Baltimore. Today's Free Press headline said: "Tigers Soaked, But This Time It's Just Rain."

Baseball "At Worst"

Don Wolfe, sports editor of the Toledo Blade, wrote that those who wanted to see baseball in the worst way certainly did — at Briggs Stadium, the Tigers lair.

Detroit Times' baseball writer Joe Falls asked where the Tigers can turn.

"Fire the manager?" Falls asked. "They've done that. Trade their stars? Who'd give them a decent deal at this time? Berate the players? Why? Mediocrity, as once noted, does not respond to the lash."

Just Tuesday Manager Bill Norman himself admitted that his team has been pitiful to the point of being funny. But he added: "I can't laugh, you know. I'm the manager. Things ain't a bit funny."

TO TALK MERGER

SUNBURY, Pa. (AP) — Presentation of reports was the main business scheduled today at the 20th annual meeting of the Susquehanna Synod of the United Church of Christ.

The denomination's 110 pastors and lay leaders attending the two-day meeting were due to hear about progress in merging the Evangelical Reformed Church and the Congregational Christian Church into the United Church of Christ.

OK PAYMENTS

HARRISBURG (AP)—The State Public Welfare Department today authorized these payments to hospitals which have met the agency's requirements:

PICK JORDAN
AS FIGHTER
OF THE MONTH

NEW YORK (AP) — Gaining stature through his convincing 15-round title defense against Virgil Atkins, welterweight champion don Jordan is named "fighter of the month" by Ring magazine, whose monthly ratings were announced today.

The Los Angeles fighter's performance had been something less than impressive when he won the title from Atkins, but in defending the crown he fought a stout uphill battle to convinced the skeptics he deserved the championship. Most of the changes in ratings in the various classes were minor. The heavyweight list is unchanged from a month ago.

Colderwood Moves Up

The only change among the light heavyweights finds Chic Colderwood, the unbeaten Scot, moving from 10th to ninth, with Jerry Luedde of New Haven, Conn., dropping to 10th.

Rory Calhoun, loser to Carl (Bobo) Olson, was dropped from the top 10 in the middleweight division, with Gene Armstrong moving to eighth, and Paul Pender ninth and Bobby Boyd 10th.

Second only in importance to Jordan's performance was the fine showing of Duilio Loi of Italy in the welterweight class. Loi defeated Emilio Marconi, also of Italy, and now is ranked eighth.

Charley Scott of Philadelphia moved into the seventh spot in the welter division by virtue of two victories over Isaac Logart, who dropped from fifth to 10th, Gaspar Ortega and Denny Moyer moved to fifth and sixth, respectively, in that class, and Vince Martinez slipped to ninth. Gil Turner, along with Marconi, is out entirely.

Paolo Rosi of New York, who knocked out Frankie Ryff, jumped to third in the lightweight division, replacing Loi, now a welter.

Also in the lightweight ratings Willie Towel of South Africa moved from sixth to fourth and Johnny Gaonsalves from eighth to fifth. Johnny Busso dropped a notch to sixth because of his knockout by Kenny Lane, and Paul Armstead slipped to eighth.

GORDON LOSES
ON DECISION

PITTSBURGH (AP) — Willie Dockery of Brooklyn, N.Y., pounded out a unanimous decision Tuesday night over Bobby Gordon of Charleroi, Pa., in a 10-round middleweight boxing bout in nearby McKeesport.

Gordon, recently named Pennsylvania middleweight champion by the State Athletic Commission, was the aggressor throughout but Dockery landed the harder punches.

Although there were no knockdowns, Gordon staggered Dockery once at the end of the seventh round with a solid right to the chin. The two fought toe-to-toe the last half of the 10th round.

Dockery weighed in at 162½, Gordon at 165. It was the first bout for Gordon since Dec. 16.

In a preliminary six-round lightweight bout, Carmie Price, 138, of Ambridge, Pa., knocked out Dick White, 134, of Cleveland, at 1:15 of the second round.

COMPROMISE ON BEER AND LIQUOR SALES IS UNVEILED

HARRISBURG (AP) — A new plea for support of a 3 1/2 per cent sales tax on beer and liquor was pitched today toward opponents who want across-the-bar drinks kept exempt.

Rep. Stephen McCann, Republican floor leader, unveiled a compromise which would impose the tax on the retail and wholesale sales by beer distributors and at state liquor stores.

But drinks sold at a bar would not be taxed under the new plan which McCann said would be put up for a final House vote Wednesday.

Would Cut Receipts

The Democratic chieftain said removal of this controversial point may lessen opposition to the levy to the point that it may pass even without Republican help.

But the emasculated bill would cut the 59 million dollar estimated yield to 37 1/2 each biennium.

With Gov. Lawrence's support, McCann unveiled the compromise during a House speech Monday night. He used the occasion to renew a plea that the GOP support the remainder of Gov. Lawrence's 400 million dollar tax program.

Ask Huge Cut

But Rep. Albert W. Johnson, Republican floor leader, said his side was against the Lawrence program until Democrats come up with what he termed a realistic figure on the size of the state budget.

Lawrence's proposed budget for the next two years starting June 1 is \$1,907,000,000. Senate Republicans are pledged to cut it by 100 million dollars.

The present state tax on liquor is 10 per cent. The beer tax is now a cent a pint. Both are so-called hidden taxes in that they are not stated separately when a purchase is made.

School Problems

Other legislative developments: Driver's license — Two Republican Senate leaders offered a plan to increase the cost of a motor vehicle driver's license from \$1 to \$5 but made it good for three years instead of one.

The sponsors were Sens. James S. Berger (R-Potter) and Albert R. Pechan (R-Armstrong).

Schools — The House received administration-backed bills to amend the Constitution to allow state loans for college scholarships.

Another measure would limit to \$1,000 the state aid a school district may receive for closing one-room schools.

Highway Budget Soon

At present, this aid is continued indefinitely at the rate of \$200 a year. The estimated biennial savings would be two million dollars.

Gas tax — Highway Secretary Park H. Martin said the governor would submit the highway fund budget to the Legislature in the next few days. It features a proposal to increase the five-cents-a-gallon gasoline tax to six cents.

McCann also disclosed that the newly revised revenue estimate for the 3 1/2 per cent sales tax enacted into law April 15 is 170 million dollars. The old estimate was 163 million every two years.

The figure, coupled with the beer and liquor sales tax revision, would reduce the size of Lawrence's tax package to 385 1/2 million dollars.

Committee To Meet

Johnson, in his tax speech, said it has been two months since Lawrence presented his budget and the House Appropriations Committee has not held public hearings on spending bills.

The committee holds its first session today.

"We want to know how much of that 400 million dollars is really needed," Johnson said. "We are no obstructionists. We are ready to lend a hand at the proper time but we want you (Democrats) to show your good faith."

Another Blow

McCann called on Johnson to show where any cuts can be made. He said hospitals and universities have begged both Republicans and Democrats for more money and they deserve a reply.

Another blow befell the Democratic floor leader with the announcement that Rep. J. P. Moran (D-Allegheny) underwent surgery Monday for amputation of a leg.

His absence now reduces the Democratic majority to a bare 106 votes—the minimum needed to pass a bill.

TOKYO (AP) — Red China has dropped Lung Yun, former warlord governor of Yunnan province, from its important National Defense Council.

Lung had been one of the vice chairmen of the group. He was accused of rightist deviation in 1957 for criticizing the Soviet Union and declaring that the United States had been more generous in its aid to China.

The former Nationalist official had risen high under the Communists even though he never joined the party.

MOSCOW (AP) — Ekaterina Davidovna Voroshilov, wife of Soviet President Klement Voroshilov and a veteran Bolshevik herself, died Sunday.

She had been ailing for some time. Her 78-year-old husband also has been seriously ill for months. Her age was not given, but presumably it was close to her husband's.

She became a revolutionist at the turn of the century and in 1907 was sentenced to three years imprisonment. She was active in the 1917 Revolution and worked as a party organizer among the Red cavalry.

What's wrong with the robin? Obviously, said Conway, she's confused.

HARRISBURG (AP) — The State Crippled Children's Hospital at Elizabethtown has been expanding its services to include care of the children afflicted with long term chronic conditions.

Dr. Charles L. Wilbar, State health secretary, said Monday that the hospital has been treating "youngsters with severe burns which require long term plastic surgery treatment and children with other conditions which respond to other than orthopedic surgery."

Wilbar said the hospital started admitting such patients two years ago and since has stepped up its admissions. However, he added the number of such cases in the hospital now represents only a small portion of the 150 children in the institution.

OCALA, Fla. (AP) — Three men accused of operating a safe cracking ring with state convicts face prison terms.

WEST WARWICK, R. I. (AP) — Cocktail lounges are getting as perilous as the jungle.

IN APPRECIATION

The officers and stockholders of the Citizens Oil Company take this opportunity to express their most profound appreciation and thanks to our tens of thousands of customers for their generous patronage throughout our 41 years of service to the people of Adams County.

Ours has been a pleasant relation. We are proud that it originated with our father, the late William F. Codori, in 1918 when he acquired The Texas Company distributorship, the SECOND in the eastern United States.

Through all these 41 years the Citizens Oil Company has enjoyed a most happy and pleasant relationship with thousands of Adams Countians and those who visited this area from elsewhere.

Under the ownership of the Aero Oil Company we are certain the same courteous and efficient service will continue as it has for almost a half century.

In disposing of our assets we feel (my associates, officers and stockholders) that we are combining the sales, service and productive efforts of the two oldest gasoline, fuel oil and accessory organizations into one consolidated organization to serve the maximum number of patrons with the maximum amount of unmatched service throughout the areas both companies have served for more than 70 combined years.

We hope that the patronage we have so gratefully enjoyed for more than two score years will continue with the new owners through the years to come.

Appreciatively,

Joseph E. Codori

90 STUDENTS
GIVEN EXAM

More than 90 students at the Littlestown High School took the national merit scholarship qualifying test, Frank E. Basehoar, principal, announced today. The test was administered at the high school at 9 a.m. on Tuesday.

The test is the first step in competition for merit scholarships provided by some 90 corporations, foundations, professional societies and individuals, as well as by the National Merit Scholarship Corporation itself. Some \$15 million in merit scholarships has been awarded in the first four years of the program.

The number of scholarships awarded in any year depends upon the extent of sponsor participation. The basic continuing program is for one million dollars a year (for ten annual programs). In addition, sponsor participation this year is expected to add about two million dollars more in sponsored merit scholarships. It is estimated that various outside-the-program sources will increase the present amount offered to high scoring students by several million dollars.

The qualifying test is a three-hour measure of educational development and college aptitude. Emphasis is on broad intellectual skills and on understanding and ability to use what has been learned, rather than on sheer knowledge of facts. Some 10,000 semifinalists, the highest scorers in each state, will be named early next fall. Each semifinalist will take a second examination. Those who repeat their high performance on the second examination will become finalists. Further evaluation of their grades, citizenship, and extra-curricular achievements will follow, and the winners will be announced in the spring of 1960.

Each merit scholarship carries a stipend based on the need of each individual winner, and is renewable annually without further competitive examination. The average stipend in past years has been \$700 per year. The minimum award in the 1959-60 program will be \$100 a year and a maximum of \$1,500 a year.

Littlestown, \$6.45, speed too great; Raymond Hossler, Cashtown, \$11.45, exceeding 55 miles per hour; Carroll E. Frock Jr., Emmitsburg, \$6.45, exceeding 30; Richard J. Hartlaub, Littlestown, \$11.45, operating without a license; Harry J. Crouse, Taneytown, \$11.45, starting from parked position when unsafe.

part of the rent obtained from rental of farms and houses on the battlefield be turned over to Cumberland Township and county authorities in lieu of taxes, Roth said:

Called "Fair Way"

"It would seem a very fair way of handling the problem. As with all school and local government bodies Cumberland Township needs extra income to meet its pressing obligations, and since federally owned land is tax exempt, it would seem only fair that there should be some return to the town ship and county if taxes cannot be secured." Roth said he favored a zoning ordinance.

The speaker was introduced by Mrs. Evelyn Rose, Academy of Friendship Chapter Night chairman. The senior regent, Mrs. Hil-da Newman, reported five members will receive the Academy of Friendship degree at a meeting of the Eastern Pennsylvania Women of the Moose Sunday at Williamsport. They are: Mrs. Kathryn Davies, Mrs. Jean Keller, Mrs. Mildred Cleaver, Mrs. Sarah Schmitz and Miss Cecelia Wenschhof. Mrs. Newman announced that the following nominating committee will meet Tuesday evening at 7:30 o'clock at the Moose home: Past Graduate Regents Mrs. Evelyn Rose, Mrs. Fay Neary and Mrs. Marie Keller and the executive officers Mrs. Newman, Mrs. Davies, Mrs. Heller, Mrs. Yingling, Mrs. Mary Fridinger and Mrs. Rosetta Johnson.

She also announced public card parties will be held at the home May 6 and 20.

Allies Offer Berlin And German Pact To Russians

By ARTHUR GAVSHON

PARIS (AP)—The Western foreign ministers were understood to have agreed today that they would take up the questions of Berlin and a German peace treaty as a package in Geneva talks with the Soviet Union.

This indication came after the first session of the foreign ministers of the United States, Britain, France and West Germany. They are meeting to harmonize their positions before the East-West meeting opening in Geneva May 11.

No delegation member would talk for the record. The ministers said in a communique that no information would be given to the press, at least for the time being, on progress.

Opposed to Red Plan

The reported Western determination to discuss the whole range of Berlin, Germany and European security questions is in clear opposition to the Communist position reiterated only today.

Warsaw Pact foreign ministers, winding up a conference in Warsaw, Poland, opposed any attempt to link up the discussions. They said the "two most urgent and important questions" for Geneva were conclusion of a German peace treaty and liquidation of the military occupation of Berlin.

Britain was waging a lone fight against a package deal.

U.S. Secretary of State Christian A. Herter and British Foreign Secretary Selwyn Lloyd met for lunch then headed back to further consultations with French Foreign Minister Maurice Couve de Murville and West German Foreign

Minister Heinrich von Brentano. Each delegation was seven strong, making a total of 28 men. Herter met privately this morning with Couve de Murville and Von Brentano.

Reds Back British

The Soviet bloc today backed the British position with a statement that anyone trying to tie the problems of West Berlin, German unification and European security "into one knot obviously strives to hamper agreed decisions."

Soviet Foreign Minister Andrei Gromyko and representatives of the Soviet Union's seven European satellites and Red China, meeting in Warsaw, repeated Soviet demands that (1) Berlin must be made a demilitarized "free city," (2) a German peace treaty must be written speedily, and (3) German reunification must be achieved by negotiations between the East and West German governments.

The continuing differences between the Western Allies and U.S. Secretary of State Christian A. Herter in the key role of conciliator so often played by his predecessor, John Foster Dulles.

Herter's two-fold job is (1) to try and reconcile the British desire for "flexibility" with French-German insistence on "realism," and (2) to seek agreement for a policy that will regain the diplomatic initiative for the Allies in Europe.

"Flexibility" to the British means give and take in negotiations with the Soviets and some new proposals instead of the standard all-German election plan that the Soviets have steadfastly

PAIR DISARMS COPS BUT SOON IS CAPTURED

PHILADELPHIA (AP)—Two young men disarmed two patrolmen Tuesday night and sped off in their patrol car. But after a chase of several blocks the stolen police car hit a no parking sign and the men were captured finally in a school gymnasium.

The two are Ralph P. O'Leary, of Redondo Beach, Calif., and Edwin Ensley, of Manhattan Beach, Calif. Both are 23. They were sitting in a car parked in front of a drugstore when Patrolmen Kenneth Nordgren and Julian Walker decided to question them.

Nordgren said he was frisking O'Leary for a gun when he heard Ensley say: "Let him go or I'll blow your partner's brain out."

Caught in School

He turned around and saw Ensley pointing a pistol at Walker's head. The two patrolmen surrendered their guns and the pair sped off in the patrol car.

Another police car came by at this point and soon a dozen police vehicles were chasing the pair. Several shots were fired.

After their car hit the no parking sign, Ensley and O'Leary tried to hide in the basement of the Thomas Jefferson Public School, but police soon found them and the pair surrendered.

They were held for a hearing.

APPROVE PENSIONS

HARRISBURG (AP)—The State Public Employees Retirement Board Tuesday approved pensions for these former public officials: J. D. Pennington, 78, former superintendent of the State School for Defective Delinquents, Huntingdon, \$475 a month effective on last April 1.

Edward Dunn, 55, Mount Carmel, former House member from Northumberland County, \$67 a month effective last March 2.

rejected.

"New Berlin Treaty?"

The British are ready to write a new Berlin treaty spelling out and maybe extending Allied rights of access to the city, with the United Nations brought into the Berlin setup. They also favor a zone of reduced tension in central Europe where arms and armies on both sides of the Iron Curtain can be limited, inspected and controlled. "Realism" to the French and West Germans means offering no political or military concessions until the Soviets offer first. They don't believe allied rights need redefinition. They deride talks of arms reductions in local zones. They demand political concessions in return for military relaxations.

Would Provide Coal Test Money

HARRISBURG (AP)—New legislation in the House would appropriate \$500,000 for a state experiment to determine the possibility of using coal as a roadbuilding material.

Ten Democrats Tuesday sponsored the bill which was similar to one proposed earlier in the Senate.

The legislation stems from an announcement by the Curtiss-Wright Corp. several weeks ago that it has developed a use for coal as a roadbuilding material. It asked the state's cooperation in furthering the experiment.

The appropriation would be used to pave 12½ miles of state highway with the new material to test its feasibility.

Says Bosoms Are Very Crude Topic

LOS ANGELES (AP)—It's very crude to discuss bosoms, says buxom actress Anita Ekberg.

Arriving at Los Angeles International Airport Monday, the Swedish actress was asked by a reporter: "Do you think that Europeans, especially the men, were more bosom conscious than Americans?" The reply:

"Why, they don't consider that over there. Besides I think it's very crude of anyone to bring that subject up."

TO DRILL 2ND GAS WELL OFF ERIE'S SHORE

PITTSBURGH (AP)—New York State Natural Gas Corp. says it will begin drilling a second offshore gas well on the American side of Lake Erie as soon as weather conditions permit.

The company said Tuesday the well will be drilled 3.6 miles off the shore near North East, Pa., about 40 miles east of the first offshore well drilled by the firm last year. The new well site is in a 16,580-acre tract.

A portable drilling platform used in the first operation will be employed again. The platform has been in Erie harbor since last November. Ice and frigid winds prevented operations in the winter and early spring.

First Well

The first well is 1 in the southeast corner of a 1,130-acre tract about three-fourths of a mile from shore near North Springfield, Pa.

It was completed last fall with a volume after fracturing of 200,000 cubic feet daily. This is not considered a high commercial volume.

The well has been shut in at lake bottom until it is determined what to do with the gas.

The corporation rents both drilling tracts from the Pennsylvania Dept. of Forests and Waters, for an annual fee of \$90,917. It also will pay the state a royalty on gas or oil discovered.

F-B RE-ELECTS LEON B. EPLER

HARRISBURG (AP)—The Pennsylvania Farm Bureau Cooperative Assn. has named Leon B. Epler, of Northumberland R. 1, to his 10th consecutive one-year term as president.

The cooperative Tuesday also renamed Jacob N. Smith, Annville R. 1, and Robert Leslie Sarver R. 1, Butler County, to third terms as vice president and secretary-treasurer, respectively.

Smith, Leslie and five others were re-elected to the executive committee. They were: George Steele, Pocopson, Chester County; G. Weir Strock, Mechanicsburg R. 2; Nelson L. Fisher, Knox R. 2; Herbert Bridenbaugh, Martinsburg, and Sterling T. Ritter, Easton, Herbert Nunn, Muncy, R. D. 2, was elected to his first term on the executive committee.

Three men were named to the budget committee. They are: Wilbur Bell, Indiana R. 1; Gilbert D. Beaver, Millerstown R. 2, and Paul Keeney, Rehrersburg, Berks County.

George G. Connor, executive vice president and general manager, reported to the board that the cooperative's 1958 business volume exceeded \$25,500,000, a record. The board's annual two-day meeting ended Tuesday.

MIGRANT BILL UP TO SENATE

HARRISBURG (AP)—Quick committee approval of a proposal to create a seven-man commission on migrant farm labor pushed the bill into position for the final Senate action next week.

The measure was introduced by seven Republican senators Monday and received committee approval Tuesday. It would establish the commission to maintain proper standards of health, education and welfare for migrant workers and their children.

The agency would be headed by the secretary of agriculture. Other members would be the secretary of labor and industry, the secretary of forests and waters and three farmer representatives.

Another Senate bill which would prohibit the State Labor and Industry Department from making or enforcing any rules concerning domestic servants or farm laborers received committee approval Monday.

CORN PLANTING BEGINS IN PA.

HARRISBURG (AP)—Pennsylvania farmers have started planting corn in the extreme southeastern areas and corn seedbed preparation is progressing in other sections, the State Agriculture Department reports.

The department said Tuesday that barley in many areas suffered from a winter kill. Some fields are being plowed under to be seeded to spring oats or corn and winter wheat is growing well in most areas, it added.

Other crop information reported by the agency:

Hay crops and pastures are green in all areas and growing rapidly in southern and central counties. Pastures are well advanced for this time of year, cattle have been turned into them in the southern and central counties.

Fruit farms reported peaches in full bloom in the south-central region, cherries in blossom in the central section and early apples in blossom in the Adams-Franklin fruit belt and in the pink stage in central regions.

WANTS PROBE ON BAR EXAM

HARRISBURG (AP)—A Republican senator says the state Supreme Court should appoint a commission to see why so many law school graduates are unable to pass the Pennsylvania bar examination.

Sen. Ernest F. Walker (R-Cambria) asked his fellow senators Tuesday:

"Do we actually need bar examinations? 'Why shouldn't every person graduated from an accredited law school and having a good moral character be allowed to practice law?'"

Walker said the committee to study the situation should include representatives of the State Bar Assn., the law schools and the State Board of Law Examiners. He said that about half of the graduates of the state's law school fail the bar examinations because too much emphasis is placed on the ability to memorize.

"There seems to be no reason why we should stand by year after year and see young men and women caught up in webs of our own making," the lawmaker said.

Committee Okays Commission Plan

HARRISBURG (AP)—A proposal to create a three-man commission to supervise functions now carried out by the State Highways Department has been approved by the Senate Highways Committee.

The bill, approved Tuesday, would transfer all duties, employees, supplies and funds of the present department to the proposed commission.

The commission chairman would receive a salary of \$15,000 a year while the other two members would be paid \$13,000 each. The three would be appointed by the governor.

proved a bill which would make all tunnels on the Pennsylvania Turnpike four-lanes.

The measure, approved by the committee Tuesday, would authorize the Pennsylvania Turnpike Commission to build additional two-lane tunnels at each of the seven tunnels on the toll road. All of the tunnels now are two-lane.

Auto Damage Suit Law Not Changed

HARRISBURG (AP)—Efforts to make it possible for plaintiffs in auto damage suits to collect even when they are partially responsible for accidents apparently have failed for this legislative session.

The House Tuesday defeated for the second time a proposal to revise the principle in state courts that any amount of negligence on the part of a claimant disqualifies him from collecting damages. The vote was 84-112.

Under the measure, a claimant could have collected damages for an accident unless his negligence directly caused the mishap.

SPRING CATTLE DRIVE ON RAILS MOVING EAST

LITTLE ROCK, Ark. (AP)—The big spring cattle drives are on again but if you're looking for a bit of the Old West, pardner, forget it!

One of the biggest of these drives is moving through Little Rock today. It started Sunday and before the week is over 5,500 head will move through town.

But there are no clouds of dust on the horizon. This is a streamlined affair. The cattle ride the railroads and with top priority, too.

They are part of 85,000 head that graze the 940,000-acre King Ranch at Kingsville, Tex. They are going to Pennsylvania pastures for the summer.

Unfortunately for them, they'll never get out alive. They are part of the big movement of prime beef steers (sizzling steaks to you, sir!) each spring from Texas and Oklahoma for fattening on pastures to the north.

Their grandfathers wouldn't know them. They look like a cross between a shorthorn and a Brahman. That's what they are. They are called Santa Gertrudis and were developed by King Ranch back in the 20s for the beef qualities of the Shorthorn and the toughness of the Brahman, to take south Texas hot weather.

Fill Six Trains
They got all the federal law allows here. It calls for a rest after 36 hours of train riding. At the North Little Rock Stockyards they were watered, fed and rested before being loaded 12 hours later. Another train load is not far behind. The cattle left the ranch in six trains at one-day intervals.

There are many pastures where cattle grow fat in the summer. There are the Osages in Oklahoma, the Bluestem grassland of Kansas. These are going to the Buck and Doe Run Valley Farms, the 10,000-acre King Ranch pastures at Doran, Pa.

Wherever they go, all will

James MARLOW Reports

The Associated Press

WASHINGTON (AP)—There's no soothing syrup in the events ahead. The thing to look for is whether Nikita Khrushchev can do the Western Allies any more damage than he's already done.

With no more expense than the wind it took for some speeches and statements he split the Allies a bit on how to handle the demands for a "free" West Berlin, a peace treaty with the two Germans, and a few other things.

The Allied reaction ranged from don't-budge-an-inch stand of France and Germany and the stern American hold-the-fort attitude to the flexibility advocated by Britain.

Four Ministers Meet
Tuesday the four Allies' foreign ministers—including Secretary of State Christian A. Herter—gathered in Paris to decide how they will answer the Soviets when they meet with them May 11 in Geneva.

The Geneva session is supposed to be preliminary to a summit meeting. No doubt the Allies in Paris this week will iron out their differences—so far as is visible, anyway—if for no other reason than because they have to.

They can't afford to be obviously divided when they sit down with the Soviets in May. It would not only mean a Khrushchev victory but might cause an irreparable split among the Allies.

See Allied Unity
It's quite likely the Allies will come out of their Geneva talks in good shape—in the sense of being lined up together on whatever answers they have for the Soviets.

The real test of their solidarity will come at the summit. The un-literally eat themselves into an early death by growing into what makes juicy steaks.

predictable Khrushchev may have already conjured up summit proposals intended not to get solutions but to split the Allies wide open.

A great many explanations have been offered as to why Khrushchev last November first made his demands.

Distract The West

For instance, it has been suggested that he wanted to distract the West while communism was taking over Iraq in the Middle East; that he somehow hoped to neutralize West Germany and thus clinch his grip, without worry, on the satellites.

All these things may have been in his thinking but it's possible he also thought something like this: "I can't lose by making demands. If I don't get any place, I won't be worse off than I am now. But maybe I can find some weak spots in the Western alliance, create differences, weaken it a bit."

One of the weak spots, of course, is a natural, human desire to avoid a crisis which might lead to war with the Soviet Union which seems at the moment capable of blasting Western Europe off the map with missiles.

On The Defensive
It is also natural that the various groups of West Europeans would vary—as they seem to be doing—in their reaction to Soviet demands and pressure.

No wonder, then, that the West, including the United States, has been on the defensive in this situation with Khrushchev. It has not once sought to take the initiative away from him.

It has sought, instead, how to answer him. He may be able to do damage at the summit if—in order to split the Allies—he makes concessions to one of the Allies that seem repulsive to another.

Observers Predict Trouble Under President Of China

By ROY ESSOYAN

HONG KONG (AP)—American, British and Chinese observers here agreed today the election of Liu Shao-chi as president of Red China means trouble.

But they split sharply on whether it means trouble for the West or for Communist China.

"Peiping is in trouble," an American diplomat said. "This means they are split wide open."

"We are in trouble," a British expert on China said. "Peiping is going to play tougher than ever now."

"There's going to be trouble," a Chinese observer predicted. "The Chinese people don't like Liu. We have not heard the last of it yet."

Still A Leader

Peiping radio kept emphasizing that Mao Tse-tung was still the nation's hero and chief leader. Mao stepped down from the presidency but retained the most powerful job as head of the ruling Communist party. The broadcast said crowds filled the streets, beating drums and gongs, dancing

CASTRO DENIES AIDING REBS IN PANAMA BOLT

HOUSTON, Tex. (AP) — Fidel Castro, en route to Buenos Aires for a Latin American economic conference, said here Monday night he has no interest in promoting revolutions in other countries.

The bearded Cuban prime minister spiked reports that he and his brother, Raul, commander-in-chief of Cuba's armed forces, have been having disagreements. Denying that he had any part in an attempted Panamanian revolution, Castro said that his only concern is in the Cuban revolution.

Earlier this week a small invasion force landed on the coast of Panama. Panamanian officials said several of those captured were Cubans and quoted them as saying Castro had encouraged them.

"Not Giving Help"

"We have not been helping any kind of movement in Panama," Castro told a news conference. "Our position (concern) is only in the Cuban revolution."

Castro was greeted by a crowd of 1,000 persons, shouting "Fidel! Fidel!" when he arrived in Houston.

Waiting for him was Raul who had flown in unannounced several hours earlier, amid reports from Cuba that the two brothers were in disagreement.

Fidel said he had phoned Raul Sunday and asked him to meet him in Houston. He said he had been out of Cuba for 10 days and he wanted Raul's impressions of how things were going.

COALMEN ASK FOR U. S. HELP

WASHINGTON (AP) — Leaders of the coal industry have asked for legislation that they said would put coal on a par with competing fuels.

Their plea was heard by 160 congressmen Monday night at a dinner hosted by the new National Coal Policy Conference. The United Mine Workers, coal companies, coal-using utilities, and coal-hauling railroads make up the conference.

John L. Lewis, president of the UMW, said Congress should set up a national fuels policy, a set of rules that would enhance coal's position in the market.

George H. Love, chairman of the conference, recommended that Congress first study the whole fuels problem, listening to representatives of the coal, gas, oil, and atomic industries. This would lead to "the proper policy for the balanced use of these fuels from a broad public point of view," he added.

"Having found that proper policy," Love continued, "let us then implement it by the law, if necessary, so that the recommendations may be carried out this time."

Outfielder Richie Santos, VMI junior, comes from Ecuador. He earned his baseball letter as a sophomore.

Michigan State's football team has a record of 18 wins, 6 losses and 3 ties with Pacific Coast elevens.

TV TALENT IS BEING LURED FOR SUMMER

NEW YORK (AP) — The vast American summer theater is cooking a straw-hat to attract television performers.

They plan to go in droves this summer—many for the experience of playing roles they never get on TV, some for the money. The American public will come in droves to see them. Some summer theater managers maintain television has been a tremendous boost to their business.

One of these is John Kenley, director of one of the nation's most successful summer playhouses in Warren, Ohio. From June 16 through mid-September he packs 'em in a 2,600-seat auditorium at 90 cents to \$2 a head.

His theater is strategically located in an area roughly bounded by Cleveland and Akron, O., and Erie and Pittsburgh, Pa.

"There are five million people in that area—all of them watching TV every night."

"Jack Paar is keeping all of Ohio awake, for example. They used to be 11 o'clock towns, but now they've become one o'clock towns."

The people who flock to summer theaters want to see performers they've met on television, Kenley says.

The most popular performer of recent seasons in his theater, he

believes, is Genevieve, who apparently took Ohio by storm as a result of her appearances on the Paar show. Kenley paid her \$7,000 a week to play Warren last season. She's returning there this summer.

Among others he has lined up for this summer are: Peggy Cass playing in "Born Yesterday" (She's popular not because of what she did in "Auntie Mame," but because of the Paar Show).

Jaye P. Morgan in "Bells Are Ringing." Virginia Mayo and Michael O'Shea in "Tunnel of Love." Dick Shaw in "The Seven Year Itch." Deborah Paget in "Pajama Game." The list is long and impressive.

The 500-mile International Sweepstakes auto race at Daytona Speedway is listed for Feb. 14, 1960.

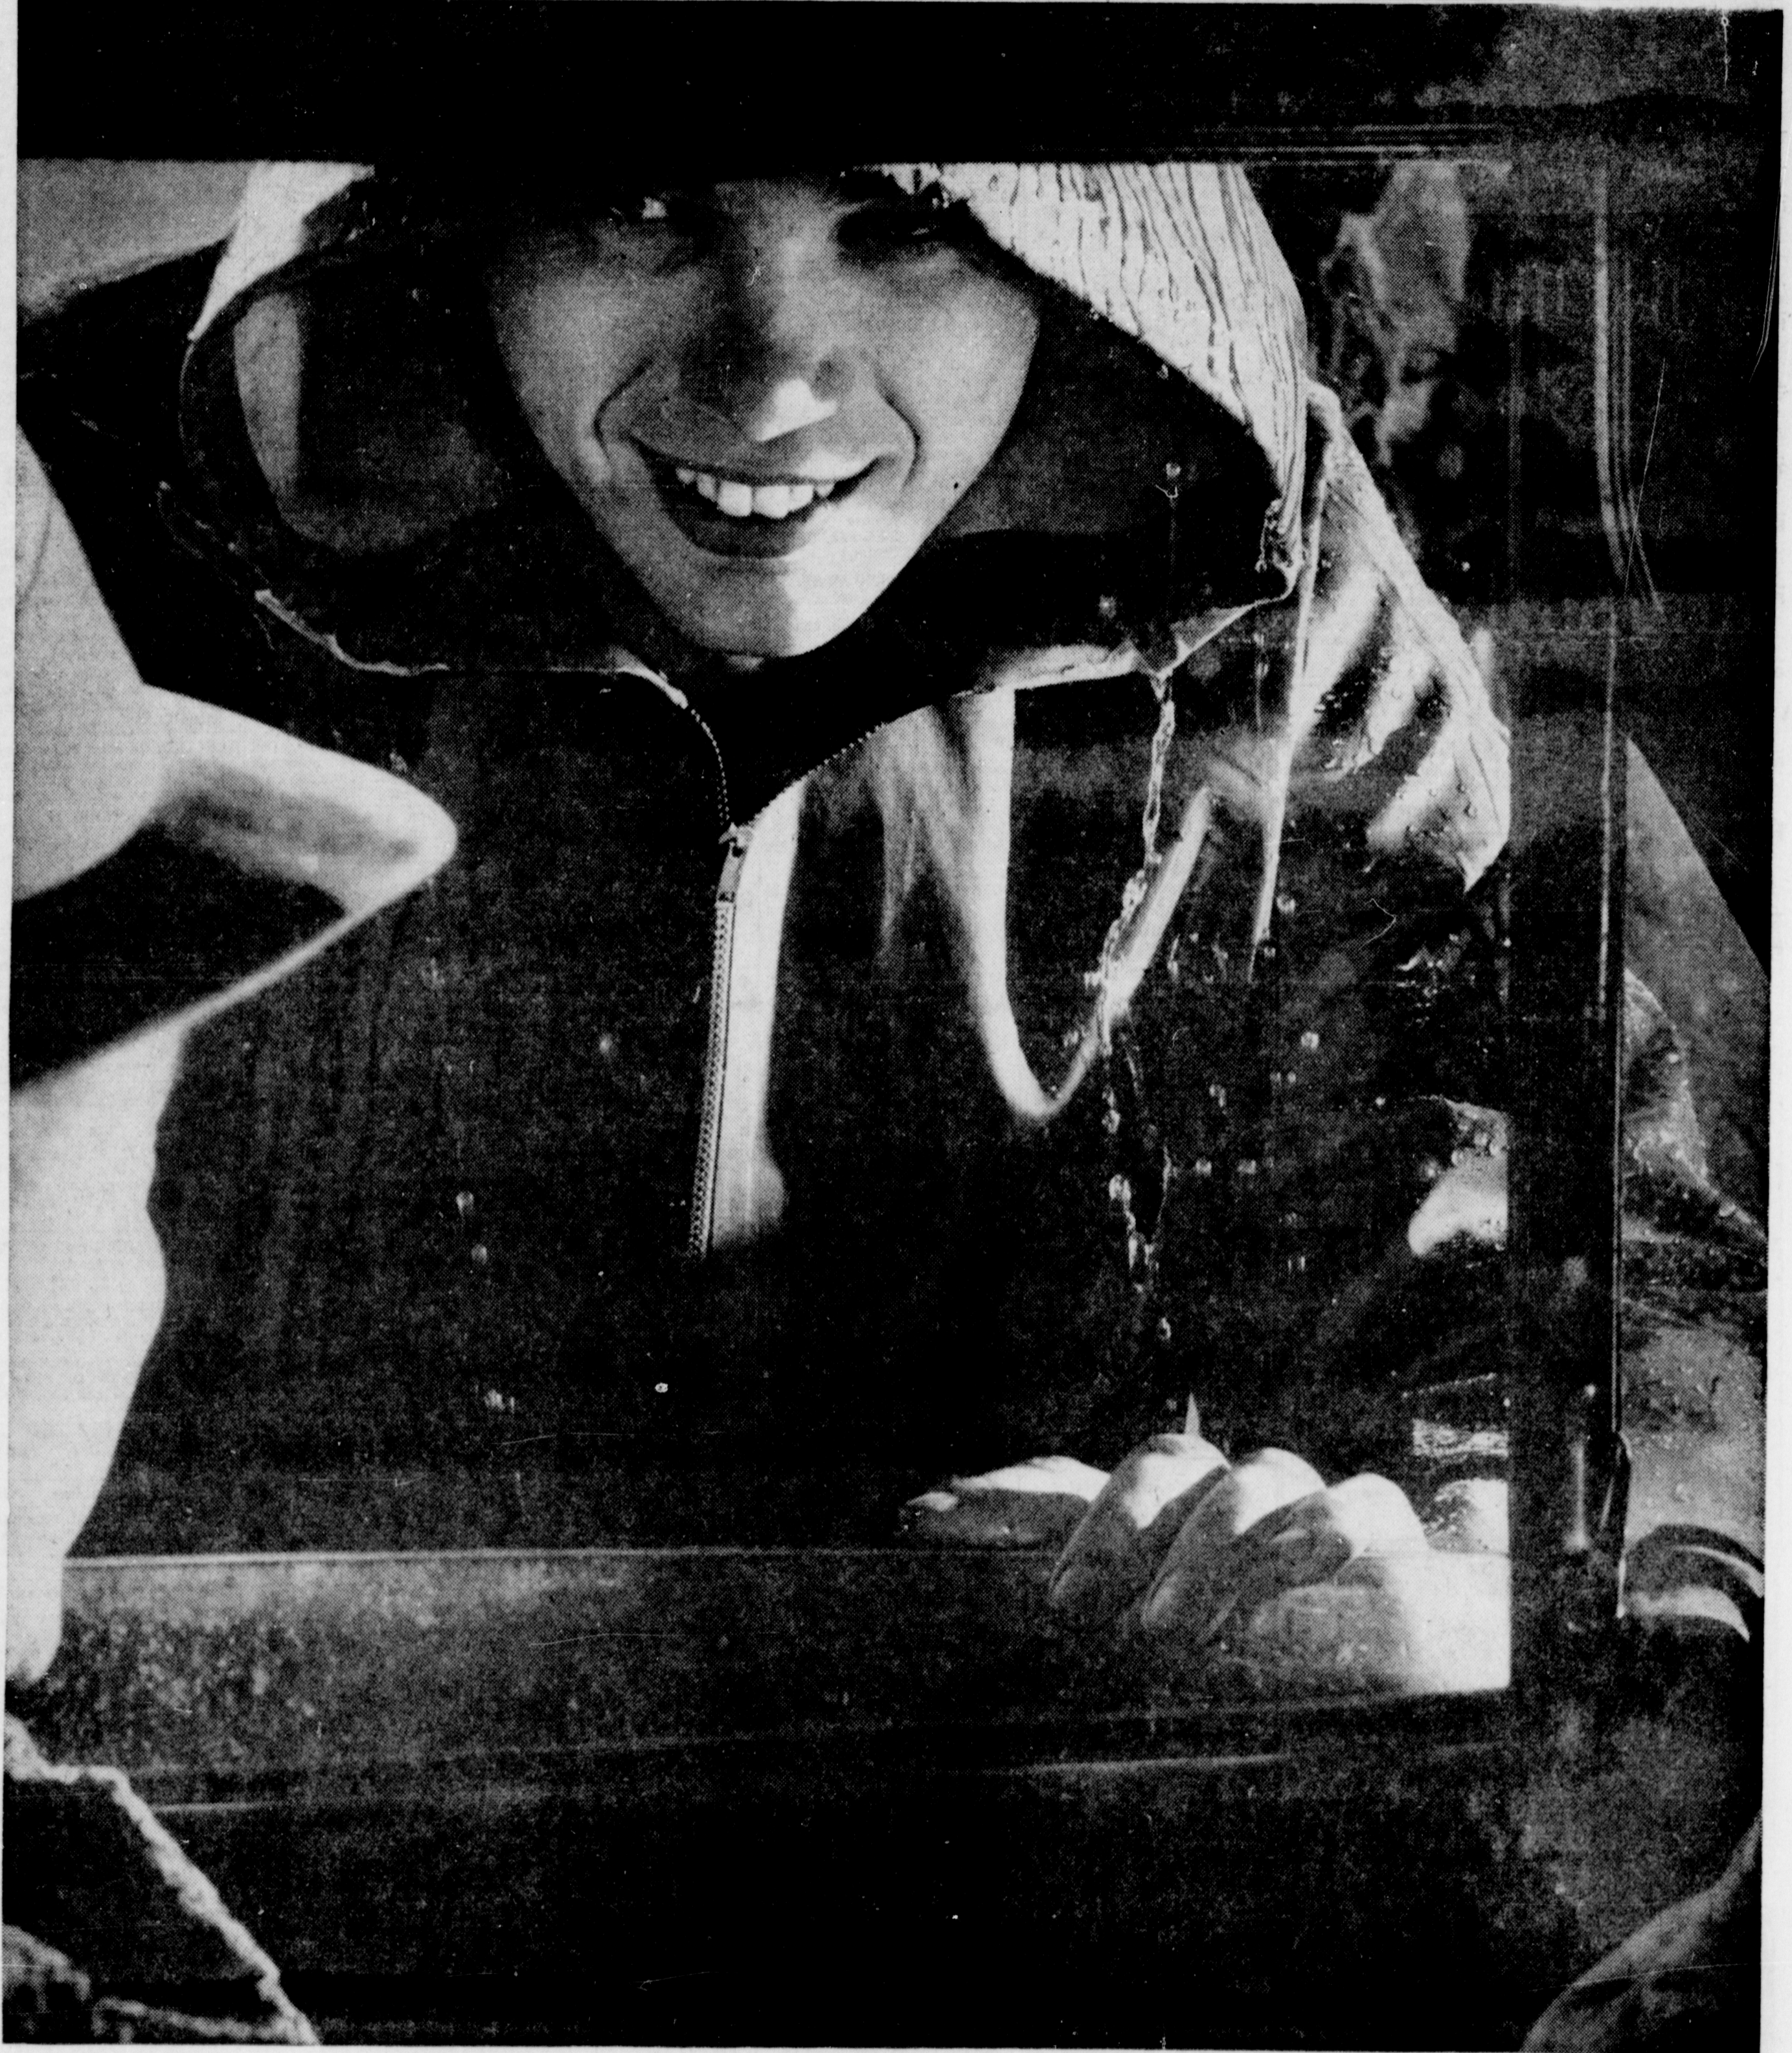

Get Exemption On Close Vote

HARRISBURG (AP)—After two roll calls without a vote to spare, the Senate passed and sent to the House a bill which makes municipal transportation authorities exempt from state taxation.

The legislation provides the tax exemption for authorities that are providing public transportation which is not in competition with a private transportation company.

On the first roll call Monday night, the Senators voted 26-18 for passage. Twenty-six votes are required to pass legislation in the 50-member Senate.

The result of the first roll call was questioned, but although eight Senators changed their votes the second time, the vote was the same—26-18.
